

Dear Teacher,

We are delighted that you have chosen to have your classes tour the Mary Washington House to reinforce your 4th grade SOL activities. While at the Mary Washington House, students will become acquainted with the time that she in which she lived and will learn about the life of children during that time.

Some notes to help make your tour successful:

Our tours work better with small groups. Groups of larger than 25 people will be split into two groups. The maximum number at one time is 50, including chaperones and adults.

Please help our guides by reminding students to “look with their eyes and not with their hands” and quietly correcting any inappropriate behavior.

Students are welcome to sit on the floor in the “Bed-sitting” room to make them more comfortable. Our guides have a basket of touchable items such as soaps, toys, and candles to make the history come alive.

On this same website are additional items that you may copy to help in your tour. Before or after your tour, if you have any questions or comments, please do not hesitate to call me. You will also see a letter regarding “gift bags” available in the Gift Shop to facilitate your visit.

Thank you again for choosing to visit the Mary Washington House. We look forward to having you as our guests.

Sincerely,

Anne R. Darron
Manager
Mary Washington House
